Our History

A Journey to Success

Mriya's journey to success started 20 years ago as a family business with just 50 hectares of arable land. Since then, the Company has expanded dramatically. Today, Mriya manages a land area of approximately c. 300 thousand hectares in the most fertile regions of Ukraine: Ternopil, Khmelnytsky, Chernivtsi, Lviv and Ivano-Frankivsk. It has gained extensive agricultural experience which was combined with the efficient use of natural and land resources, the most advanced technologies, modern equipment and machinery. Step by step, Mriya has made its dream come true, building a leading agricultural company, with some of the best infrastructure in Ukraine. The successful journey continues, thanks to Mriya's strong and experienced management team, as well as the hard and determined work of all its employees.
