**Presence of land conflicts**

Presence of land conflicts  
Comment on presence of land conflicts

Yes  
Encroachment of farmland and forest and land grabbing of the company

### Displacement of people

Displacement of people  
Number of people facing displacement once project is fully implemented

Yes  
2000

### Negative impacts for local communities

Negative impacts for local communities

Environmental degradation  
Socio-economic  
Cultural loss  
Eviction  
Displacement

Comment on negative impacts for local communities

The loss of community forest and land has deprived households of sources of income, such as non-timber forest products and land reserved for future generations. It adds their plan to register the area as indigenous community land has been obstructed. Mango groves, grazing land, spirit forests and farm fields have been destroyed.
