#### Local communities / indigenous peoples

##### Consultation of local community

Comment on consultation of local community

Authorities tried to convince the community to accept the logging by offering two bags of salt,

health care products, cigarettes and matches.

### How did the community react?

Community reaction  
Comment on community reaction

Rejection  
Alleged beatings and the arbitrary arrests of members of the local management and monitoring committee in Bayeria village. The violence seemed to originate from a conflict over the social contract with the company. Local communities told members from a local NGO that when they erected a blockade in an attempt to stop the logging, the police were sent in, and started looting their property. Sheer fear then propelled several members of the community to flee into the forests.

---

#### Produce info

---

### Detailed crop, animal and mineral information

Crops area

Trees (unspecified)

### Use of produce

Has export

Yes

### In country processing of produce

In country processing of produce

No
