The contents of the letter sent by the Regent of Lamandau, namely a complaint as well as a request that the plasma cooperative's remaining outstanding Production Results (SHP) be immediately resolved and paid by PT Gemareksa Mekarsari and PT Satria Hupasarana.

Hendra said the letter also contained about the company's treatment, as well as asked the company to immediately resolve the problem which had been going on for a long time wisely and fairly.

"The arrears are related to the livelihoods of thousands of people who are members of the nine cooperatives, which are in direct partnership with the Malaysian BUMN subsidiary. The information we are members of the nine cooperatives reaches 8,461 people," he said.

The number one person at Bumi Bahaum Bakuba emphasized that PT Gemareksa Mekarsari's remaining production arrears to the cooperative were from May to November 2018 and there were also arrears from several periods.

He said the Lamandau Regency Government had actually mediated several times between the cooperative and the company. The mediation was also at the request of the company, because the company belongs to the Malaysian kingdom so the mediation was G to G in nature.

"We have facilitated both parties to mediate and ask to be paid as soon as possible, but there is no clear point. Hopefully an official letter is sent to the Malaysian Ambassador. quickly," said Hendra.

Felda is the largest plantation manager with 811,140 hectares of oil palm plants in Peninsular Malaysia, Sabah and Sarawak. The company also manages oil palm plantations in Indonesia in collaboration with Rajawali
