Donggala, Journalsulawesi.com - Investigation Division of the Indonesian NGO GARDA TIPIKOR, Anwar Hakim, SH. MH asked the Regent of Donggala to take steps and policies to close the operation of the NPK fertilizer factory, owned by PT Cipta Agro Nusantara (PT CAN) in Dalaka Village, Sindue District, Donggala Regency, Central Sulawesi.

This is because the company that is included in the Astra Agro Lestari Group (AAL) has not yet secured an operating license as required in Law (UU) Number 32 of 2009 concerning Environmental Impact Analysis (AMDAL), Government Regulation (PP) Number. 27 of 2012, Regulation of the Minister of Environment Number 8 of 2006 and Government Regulation Number 18 of 1999 concerning Toxic Wastes.

According to Anwar Hakim, the Regent of Donggala must take a firm stance, because long before that, the Donggala Regency Government had sent letters of warning and warning three times, but the aka PT AAL company never responded and heed it.

"You can imagine, it has been operating for two years, but has not yet obtained an official permit," said Anwar Hakim who is also a legal practitioner.

According to Anwar, if this condition continues to be ignored, then later on, it will have an environmental impact on the community, then the Donggala Regency Government will be to blame. Therefore, the fertilizer factory must be closed temporarily.

With this firmness, at least it can dismiss the issues and signals that the Regent of Donggala has made efforts to ignore it.

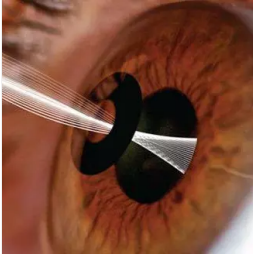

He also added that the Regent has actually opened the widest possible space for investors to invest in Donggala Regency, but investors must also obey and obey the prevailing laws and regulations.

"Don't just crash the existing regulations. So if the Regent takes a firm stance, it is purely based on the prevailing laws and regulations," he concluded. [\*\*\*]
