WE Online, Balikpapan (<https://www.wartaekonomi.co.id/dateline11/balikpapan>) - PT Perkebunan Nusantara XIII (PTPN XIII), a subsidiary of Holding Perkebunan Nusantara PT Perkebunan Nusantara III (Persero), handed back 279 plots (parcels) of certificates of plasma farmers that were paid off credit in Paser Regency, East Kalimantan.

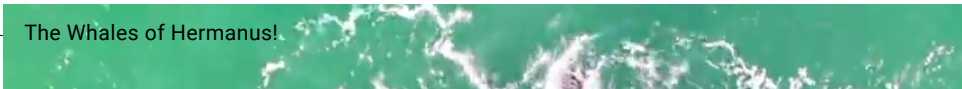

The submission of the certificate of the farmers in full credit and the program for accelerating the certificate of plasma plantation under the guidance of PT Perkebunan Nusantara XIII, was witnessed by the Director General of Land Acquisition of the Ministry of ATR / BPN ArieYuriwin, Director General of Legal Relations of the Ministry of ATR / BPN RB AgusWidjayanto, Regent Paser Yusriansyah Syarkawi, President Director of PTPN XIII Abdul Ghani and the Board of Directors of PTPN III Holding which took place at the Paser Regent's office, East Kalimantan, Wednesday (24/5).

President Director of PTPN XIII, Abdul Ghani, said the program to accelerate the certification of PTPN XIII-assisted plasma plantations is in order to support the Ministry of Agrarian and Spatial Planning / National Land Agency regarding Complete Systematic Land Registration (PTSL) in line with the national program of 5 million certificates.

Ghani revealed that his party was applying for certification of plasma plantations in 2017, totaling 11,602 parcels. "Specifically for the East Kalimantan region, 2,276 parcels of land will be submitted, consisting of KKPA & Revitbun totaling 1,874 parcels and PIR totaling 402 parcels. Meanwhile, farmers' certificates are paid off for credits submitted at this event? Specifically for East Kalimantan as many as? 279 parcels," he said.

With the program to hand over the certificate for plasma smallholders, it is hoped that plasma farmers can sell FFB to the palm oil mill owned by PTPN XIII and carry out factory rehabilitation and efficiency in processing costs. "The benefits of this program are to improve the quality of production and be able to compete with other PKS companies," Ghani said.

PTPN XIII's working area is on the island of Kalimantan, covering West Kalimantan, South Kalimantan, Central Kalimantan and East Kalimantan, with a total area of gardens, as follows :?

- Palm oil plantation? Core? an area of 68,021? ha, (53.65%), and Plasma Palm Plantation of 58,773 Ha (46.35)?

- Core Rubber Gardens covering an area of 25,208 ha (46.00%) and Plasma Rubber Gardens covering an area of 29,595 ha (54.00%)

Khusus untuk wilayah Kalimantan? Timur luas total areal Kebun Sawit? Inti? seluas 24.840 ha, (44,70%), dan Kebun Sawit Plasma seluas? 30.815 ha (55,30%), Kebun Karet Inti seluas? 1.821 ha (27,20%) dan Kebun karet plasma seluas 4.883 ha (72,80%).

Berdasarkan data areal tersebut di wilayah Kalimantan Timur, PTPN XIII telah membangun kebun plasma sawit sebesar 55,30% dan plasma Karet sebesar 72,80%, dari total areal kebun PTPN XIII.

Hal ini telah melebihi ketentuan Peraturan Menteri Pertanian No. 98 Tahun 2013 Tentang Pedoman Perijinan Perusahaan Perkebunan, yaitu kewajiban membangun kebun plasma minimal 20% dari total areal kebun yang diusahakan.

"Tapi pada pelaksanaan lebih besar luasan lahan petani plasma dibandingkan perkebunan inti," ujarnya.
