ector of Advocacy for Transformation for Indonesian Justice, said that despite not having a HGU, Indonesia's plantation in a number of Central Sulawesi regions, the company is still working on land titled to it. This contradicts the Basic Agrarian Principles and Government Regulation No. 40/1996 on Rights.

company often postpones the issuance of HGU, even though it already controls thousands of . Without HGU, it means they are operating illegally, this is what the government loses because revenue, and also the residents whose land was taken,"he told *Bisnis.com* during a visit to strict, Banggai Regency, Central Sulawesi, last week.
