Perhaps one of them is that we continue to collaborate with employees in Bukit Indah Village, the programs for now are in the short term," said Serius Pinem, Manager of PT Gemareksa Mekarsari, Thursday, December 5, 2019.

He added, for the road, we have included it in the CSR program, so we can use heavy equipment as much as possible to help repair the road. In Bukit Indah Village, since it has been 6 days running, this road has been repaired, about 2 kilos long.

for road works, which is bad, especially we repair the main road first, because the users of Poros Road are roads of all communities, where we go to Bukit Indah Village, the importance of accessing roads for school children

I also appeal especially to the residents of Bukit Indah Village, because there is also cooperation in the plasma sector, so at least safeguarding the fruit.

Don't get disturbed by other people, as well as if there is, you need help, you need activities. In a village that has been specially made for celebratory people, we deliver it for water using PT Gemareksa Mekarsari's Tengki, to help those who have a celebration," he concluded.
