Xekaman 3 Hydropower Plant has total capacity of 250 MW including 02 units, commenced in April 2006, completed in July 2013.

- Project: Xekaman 3 Hydropower Project
- Location: Dak Cheung district, Sekong province, Lao PDR
- Employer: Viet-Lao Power Joint Stock Company - Song Da Corporation.
- Main contractor: Song Da Corporation
- Construction period: 2006 - 2013

### Scope of work performed by Song Da 9

---

Total quantity performed by Song Da 9:

- Excavation: 3,600,000 m<sup>3</sup>
- Back filling: 4,100,000 m<sup>3</sup>

#### Including:

1. **Diversion tunnel:** excavation and transportation for tunnel foundation
2. **Cofferdam:** execute cofferdam.
3. **Rolling weir:** excavation and transportation for foundation, dam execution.
4. **Spillway:** excavation and transportation for foundation.
5. **Ground grading for auxiliary and camp area.**
6. **Bulldoze, excavate at No.2 Quarry**
7. **Ownership of No.2 Quarry:** Exploitation and transportation for executing dam
8. **Construction road, operation road:**
  - Right-bank operation road (Đ3): 5Km, from Km 0+00 (IIA dam) to Km5+00;
  - Left bank operation road (Đ4): 5.5 km, from Km12+00 to Km17+500;
  - TC5 road, from TC28 road to downstream of rolling weir: 0.64 km;
  - TC9 road, from TC7 road to rolling weir: 0.4 km;
  - TC12 road, from TC1 road to rolling weir: 0.43 km;

- TC11 road, from TC1 road to rolling weir: 0.64 km;
- TC13 road, from TC8 road to rolling weir: 0.44 km;
- TC14 road, from TC28 to downstream of rolling weir: 0.33 km;
- TC23 road, from VH3 road to well outlet: 0.91 km;
- 01 temporary bridge and approach road;
- TC28 road: 2.9 km;
- TC1, TC4, TC15 and TC15A road.
