Al Rawafed Serbia

Welcome to Al Rawafed Serbia. One of the leading producers of different varieties of high-quality crops for domestic and foreign markets using the latest agricultural technologies.

Al Rawafed Serbia is a joint venture between Elite Agro LCC and the Republic of Serbia. The Company was established with the aim of advancing and developing Serbian agriculture by investing in crop production, modern mechanisation and farming methods, irrigation systems, new logistics, and infrastructure. Al Rawafed Serbia grows a wide range of highly quality agricultural products on 10,418 ha of land in the Vojvodina region including 128 ha of organic certified production.

Our vision and goal is to invest in the development of agricultural production and modernisation of existing infrastructure in the Republic of Serbia. Key elements of ARS operations include accelerated business development, development of irrigation systems, land management, improvement of production systems, developing and enhancing organic production and investment in agro machinery.

By implementing modern technologies ARS has enhanced operational and economic efficiencies, along with gathering valuable insights from collecting field data to achieve better production and operational results. Usage of high-end irrigation systems together with implementation of precision agriculture techniques has resulted in a high proportion of double-cropping and increased yields. Al Rawafed Serbia has fortified its position as a leader in the agricultural business and acts as a connection between South-eastern European countries and the growing economies of the world, for both domestic and international consumers.
