Al Rawafed Serbia donation for the Internal Department of OBV

🕒 06/06/2017 📁 Lead

Today, Dragan Crnjanski, General Manager and Gordana Poparić, Head of Development of the company "Al Rawafed Serbia" from Belgrade, visited the General Hospital Vrbas and donated five computers, printers and additional equipment to the Internal Department.

On that occasion, Dragan Crnjanski said: "It is our pleasure to contribute to better work with this small donation, that is, to make

Serbia, as a socially responsible company, believes that all companies should contribute in some way to the local community and the environment. Although our headquarters are in Belgrade, we have an operating unit here that is stationed in Sivas, with a significant number of employees who gravitate towards the Vrbas General Hospital as patients. This is just the beginning and I hope that we will have further successful cooperation with the hospital in Vrbas. "

"Our goal is for our company to be a company that will create a good living environment for employees, and health support in that sense is very important. I hope that with this donation we have contributed to our employees, but also to all patients being safer when they go to the doctor and, as already said, let this be just the beginning. "- said Gordana Poparić

The guests were welcomed and thanked for the donation by the Acting Director Dr. Milan Popov and the Head of the Internal Department Dr. Vujadin Trivković. Dr. Popov introduced the representatives of the company "Al Rawafed Serbia" with the work and problems in health care in general, and Dr. Trivkovic stressed that this donation is very important for the hospital, especially the Internal Medicine Department, adding: "We started in this way let's upgrade computer equipment and then some other needs. I hope that other socially responsible companies will join our action. From the bottom of my heart, I would like to thank the management of Al Rawafed once again.
