# EDF Nam Theun 2 Floating Solar PV Park, Laos

December 10, 2021

Share

**E**DF Nam Theun 2 Floating Solar PV Park is a 240MW solar PV power project. It is planned in Bolikhamxai, Laos. The project is currently in permitting stage. It will be developed in single phase. The project construction is likely to commence in 2022 and is expected to enter into commercial operation in 2024.

Project Type	Total Capacity (MW)	Active Capacity (MW)	Pipeline Capacity (MW)	Project Status	Project Location	Project Developer
Solar PV	240	-	240	Permitting	Bolikhamxai, Laos	EDF Renewables

## Description

The project is being developed and currently owned by EDF Renewables.

EDF Nam Theun 2 Floating Solar PV Park is a floating solar project which is planned over 3.2 km<sup>2</sup>.

## Development Status

The project construction is expected to commence from 2022. Subsequent to that it will enter into commercial operation by 2024.

## About EDF Renewables

EDF Renewables SA (EDF Renewables), a subsidiary of [Electricite de France](#) SA, develops, constructs, operates and maintains green electricity power plants in Europe and North America. The company produces electricity through various renewable energy sources such as wind, solar, hydro, and biomass. Its business activities include project development, production site construction, development and sale of structured assets, power generation, and operation and maintenance of energy generating facilities. The company develops, constructs and operates renewable energy plants not only for its own operation, but also for third parties. EDF Renewables has international presence with operations in the US, Mexico, Canada, Spain and other countries such as Europe, South Africa, and India. EDF Renewables is headquartered in Paris, France.
