

Goldenlay

is the biggest and only fully automated producer of table eggs in Zambia, with significant market share and the capacity to service existing and potential markets in and around the region.

[Corporate brochure](#)

Welcome to the home of perfect eggs...

Goldenlay, established in 2005, is the preferred producer, supplier and distributor of table eggs across the region, boasting a brand familiar to retail clients and consumers. Our farm and production facilities are strategically located just outside the town of Luanshya in the Copperbelt, commercially the fastest-growing province in Zambia, with easy access to several export markets.

Our passionate and skilled management team has vast experience in the local and international poultry industry. Together with our partners, **Phatisa**, Goldenlay Management plans to make further investments into operational infrastructure to increase production volumes and ensure our biosecurity continues to meet global best practice standards.

Our eggs are marketed under the brand name Goldenlay and are

currently sold in all large, reputable retailers and via wholesalers to the formal and informal markets across Zambia and into neighbouring countries.

When you buy Goldenlay eggs, you are assured that the product is of the highest possible quality, safe, healthy and nutritious. The Goldenlay product range of GRAIN-FED A GRADE LARGE EGGS is currently available in an assortment of 6, 18, 30 or 60 eggs per package.

**FRESHER.
BIGGER.
BETTER.**

Perfect eggs

Goldenlay eggs are healthier than many other major sources of protein, containing essential vitamins and minerals to maintain your body, repair tissue and ensure proper functioning of body processes.

ORGANIC FERTILISER

Goldenlay can supply, or arrange supply of, quantities greater than 12 metric tonnes.

About us

Goldenlay is partnered with **Phatisa**, an African private equity firm focused on transforming Africa through sustainable food production.
