Letsatsi Solar Park

The **Letsatsi Solar Park** is a 75-megawatt (MW) solar photovoltaic power station in Bloemfontein, Free State, South Africa. The solar park uses 277,632 conventional, multicrystalline silicon PV solar panels and went fully on line in May 2014. Its annual generation will be about 150 gigawatt-hours, enough to supply electricity for about 50,000 to 60,000 homes, while reducing the use of pollution-generating fossil fuels. The Letsatsi Solar Park cost \$487 million and is operated by the Letsatsi Solar Energy Ltd., which plans to operate the solar park for at least 20 years.^{[1][2]}

Letsatsi Solar Park	
Country	South Africa
Coordinates	28°56'27"S 25°56'59"E
Status	Operational
Commission date	May 2014 ^[1]
Construction cost	US\$487 million
Owner(s)	Letsatsi Solar Energy Ltd.
Solar farm	
Type	Flat-panel PV
Site area	~100 ha (247 acres) ^[2]
Power generation	
Units operational	277,632
Nameplate capacity	75 MW _p (64 MW _{AC}) ^[1]
Annual net output	150 GWh
