

## Marneuli AGRO

Marneuli Agro (founded in 2007) is the largest agricultural enterprise in the country.

From seeding production until the full automatized harvesting - Marneuli Agro covers the whole agricultural value chain.

The company is constantly updating technologies and inviting foreign specialists to exchange knowledge and experience.

Modern irrigation systems, two hectares of greenhouses, 1000 ha of agricultural land. extensive machinery fleet with tractors, harvesters, sowing and transplanting equipment, etc. are some of the factors leading to Marneuli Agro's successful operations.

The company's commitment to transfer the know-how to local farmers and develop agricultural infrastructure in the region makes Marneuli Agro countrywide important player in Agroindustry.
