About us

Miro Forestry is a profit driven, commercial plantation timber business. The Company's objective is to be a leading low-cost producer and supplier of sustainable timber operating to high management, social and environmental standards.

Miro Forestry will continue to operate to international forestry certification standards and to conserve natural forest and other valuable vegetation within its areas of operation. The Company will continue to reach out to local communities to establish social, economic and environmental development programs within the local community adhering to high standards of corporate social responsibility.

The Company aims to be the preferred partner for the local communities in which it operates and for international business partners and financial institutions.

The Company's principal objective is to continue to acquire and build interests in timber and sustainable forestry businesses and assets that provide the Company with:

optimize long-term sustainable returns through best practice management; ownership of timber and forestry businesses and assets, which are, or have the objective of, producing sustainable timber certified to FSC standards; and revenue from the supply of timber and timber products worldwide.

The Boumfoum Plantation in Ghana consists of over 10,000 hectares of fertile land located in the Ashanti Region of Ghana. The Company’s land is located about 10 minutes drive from the town of Agogo and about one hour from Kumasi.

The Company’s Yoni Plantation in Sierra Leone consists of over 21,000 hectares of flat and fertile land located in the Tonkolili District of Sierra Leone, 90 miles from Freetown, the country’s capital, and adjacent to the country’s major highway into Freetown. The Company is growing short-rotation species including Eucalyptus and Acacia.

Ali Osseili

Group Sales Manager at Miro Forestry Developments
3w

In just one and half year, Miro Forestry has been able to produce high quality plywood serving the European Market, MENA Market, West African Market, and of course Ghanaian Market home of production.

I am really proud to be part of this development. We are the only company producing everything from our plantations which we started from scratch, in West Africa. The core of our plywood is 100% from our plantation.

It took other manufacturers way longer to achieve what we have achieved so far. Thanks to the brilliant team we have.

MIRO FORESTRY IS DOING THE RIGHT THING.
