PIK Becej donated its products in the fight against COVID-19

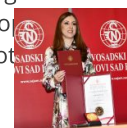

Show all

u borbi protiv COVID-19
naled.rs/covid19-donacije

- 64 RAČUNARA ZA ŠKOLE I OPŠTINSKE SLUŽBE
- 52 TONE HRANE ZA 11.000 DOMAĆINSTAVA
- 140.000 EVRA ZA MEDICINSKU I ZAŠTITNU OPREMU

The company PIK Becej donated 2,000 pieces of canned sterilized sweet corn, and in that way contributed to the fight against the COVID-19 pandemic. With this gesture, the company joined the initiative of the National Alliance for Local and Economic Development, which has brought together other Serbian and regional companies through its donation platform. In that way, a total of 140,000 euros worth of products were donated for 10,000 households in 20 cities and municipalities.

Although the state of emergency has been lifted, donations in food and other consumer goods are needed throughout the year to mitigate the negative effects of the upcoming economic crisis on the population, especially on households with below-average income.

In addition, PIK Becej, at the very beginning of the COVID19 epidemic in Serbia, donated 200,000 dinars to the municipality of Becej for the purchase of necessary medical equipment and humanitarian packages. Thus, our MK Group system has shown care for all local communities in which we operate.
