the purchase of fresh fruit bunches (FFB) from outside. This policy was taken due to temery damage and the

company's CPO storage tanks being full.

In the announcement letter dated August 29, 2022 it was explained that in connection with the occurrence of damage to the PT Steelindo Wahana Perkasa refinery factory which resulted in CPO from the PT Steelindo Wahana Perkasa and PT Parit Sembada palm mills not being able to be processed. This condition is caused by the CPO storage tank which is almost full.
