Share this article

Cole Solar PV Park is a 42MW solar PV power project. It is located in Tainan, Taiwan. **According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently active. It has been developed in a single phase. Post completion of construction, the project got commissioned in March 2022. [Buy the profile here.](#)**

Project details

Project Type	Solar PV
Total Capacity (MW)	42
Active Capacity (MW)	42
Pipeline Capacity (MW)	-
Project Status	Active
Project Location	Tainan, Taiwan
Project Developer	Vena Energy

Source: GlobalData Power Intelligence Center

Description

The project is developed and owned by Vena Energy. The company has a stake of 100%.

Cole Solar PV Park is a ground-mounted solar project.

The project supplies enough clean energy to power 8,913 households.

The project consists of 100,000 modules.

Development status

The project got commissioned in March 2022.
