Power plant profile: Minut Solar PV Park, Indonesia

Brought to you by GlobalData.

SolarPV

Share

Minut Solar PV Park is a 21MW solar PV power project. It is located in North Sulawesi, Indonesia. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently active. It has been developed in a single phase. Post completion of construction, the project got commissioned in September 2019. [Buy the profile here.](#)

Project details

Project Type	Solar PV
Total Capacity (MW)	21
Active Capacity (MW)	21
Pipeline Capacity (MW)	-
Project Status	Active
Project Location	North Sulawesi, Indonesia
Project Developer	Vena Energy

Description

The project is developed and owned by Vena Energy. The company has a stake of 100%.

Minut Solar PV Park is a ground-mounted solar project.

The project generates 33,400MWh electricity and supplies enough clean energy to power 20,138 households, offsetting 28,071t of carbon dioxide emissions (CO₂) a year.

24 inverters have been installed at the project site.

Development status

The project got commissioned in September 2019.

Power purchase agreement

The power generated from the project is sold to PT PLN (Persero) under a power purchase agreement from 2019. The contracted capacity is 21MW.

Contractors involved

JA Solar Holdings was selected as the supplier of the PV modules for the project. The company provided 64,620 modules each with 325W of nameplate capacity.
