Type of information:

Project/Program proponent:

Name	Website	Location of headquarters	Organization type
Congolaise Industrielle des Bois / Groupe OLAM International (Congolaise Industrielle des Bois)	#http://pfbcbfp.org/actualites/items/CIB-OLAM-F.html#	Congo	private for-profit
Ecosystem Restoration Associates Inc. (Ecosystem Restoration Associates)	#http://eraecosystems.com/#	Canada	private for-profit

Project/Program Partners:

Name	Organization type	Role	Information sources
Carbon Conservation Pte Ltd	private for-profit	ND	

General Information:

Project ID	
Project name	North Pikounda REDD+
Secondary name	Projet REDD+ UFE Pikounda-nord
Last Update	17 Sep 2020
Size (hectare)	92530
Start year	2012
End year	2041

Project description	The project is a reducing emission from deforestation and degradation plus conservation and sustainable forestry (REDD+) project designed to protect 92,530 ha of unlogged native Congolese forest, legally designated as a selective logging concession. The main activity of the North Pikounda REDD+ Project is the cancelation of the planned degradation and deforestation activities and the decision to instead protect the forest area. The project will implement a series of actions divided into 4 sub-categories: - Carbon stock monitoring - Remote Sensed monitoring - Field Monitoring - Social Activities.
Objective 1	climate
Objective 2	biodiversity conservation
Objective 3	return on investment
Deforestation drivers	industrial wood exploitation
Type of forest	dry
Project Type	IFM;REDD
Details for Afforestation/Reforestation projects	
Project located in an official IUCN protected area	no
Dominant type	IFM
Country ID	178
Country	
Name of the protected area	9999
Category of protected area (IUCN classification)	ND
Status	Ongoing
Multiple location?	Non
Region	Africa
Jurisdiction level 1	Department : Sangha
Jurisdiction level 2	Distric : Pikounda
Longitude	0.778754
Latitude	16.251668

Forest carbon certification:

Expected anual carbon credits(tCO2eq)	231110
Crediting period	2012-2021
Total expected carbon credits(tCO2eq)	2311097
Methodology for carbon standard	VCS VM0011
Type of accounting baseline	P1 Planned Commercial Deforestation
Standard 1 name	VCS
Standard 1 certification status	certified
Standard 1 validation date	2013-08-26
Standard 1 documentation	# https://registry.verra.org/mymodule/ProjectDoc/Project_ViewFile.asp?FileID=11470&IDKEY=kiquwesdfmnk0iei23nmm435oiojnc909dsflk9809adlklkfw15817130#
Standard 1 expiration date	
Standard 2 name	none
Standard 2 certification status	ND
Standard 2 validation date	
Standard 2 documentation	
Standard 3 name	none
Standard 3 certification status	ND

Standard 3 validation date
Standard 3 documentation

Carbon credit transactions:

Period of issuance	Quantity of credits sold (in tCO2)	Buyer's name	Type of buyer	Buyer's sector	Buyer's nationality	Buyer's motivation	Type of credit market	Sources	Transaction confirmed on official carbon register (APX or Markit)
2019-2019	564	Individual Buyer	ND	ND		ND	voluntary	VERRA registry https://registry.verra.org/app/search/VCS	Confirmed

Financing Sources:

Name of the funding organization	Type of financing	Amount (in USD)	Financing period	Information sources
Unknown buyers	Sale of carbon credits (future, prepayment, carbon funds)	9999	9999-9999	
Individual Buyer	Sale of carbon credits (future, prepayment, carbon funds)	9999	2019-2019	VERRA registry

Community interventions:

Payment to communities?	no payment
Payment details	ND
Economic activities - type	ND
Information sources	http://www.vcsprojectdatabase.org/#/project_details/1052
Is there tenure clarification?	
Is there environmental education?	
Is there forest access restriction or control/monitoring of deforestation?	
Is there forest enhancement?	
Is there community infrastructure improvement?	
Is there other community benefits?	
Are there non-conditional cash payments?	
Are there conditional cash payments?	
Are there non-cash benefits?
