output of 91,000 tonnes a year and annual gold production of about 200,000 ounces.

ine is now expected to start production in the fourth quarter of this year, gradually enting output until reaching a peak 135,000 tonnes of copper a year.

3 government anticipates the country's booming mining sector will start generating between
1 5% of its total GDP in less than 10 years, a significant increase from its current 2%.

local subsidiary currently operates the country's sole copper complex – RTB Bor. The ny had to temporarily halt work at the mine in April due to alleged breach of the country's mental standards.

it was ordered to complete a wastewater treatment plant on priority at the mine to avoid g the River Pek, a tributary of the Danube.

arket

Zijin Copper has committed to invest \$408 million this year, up from \$360 million in 2020, to ul and expand its four mines and a smelter.

an also includes improving environmental protection in the heavily polluted Bor region, in s east.

has spent billions of euros in Serbia, mostly in the form of soft loans to finance highway and projects. The investments are part of Beijing's so-called belt and road initiative to open new
