Farm Development

Using precise planing, we have place for every blueberry plant,

Protection nets are here to ensure that hail will not damage the blueberries.

Zobnatica is leading producer and distributors of blueberry fruit in the region. Our primary objectives are quality and affordability. We grow, source, import and market a wide range of high-quality agricultural products through the use of world-class technology. With the benefit of regional knowledge and expertise, and with strategic investment in modern machinery and specialist training for labour, Zobnatica is increasing output across its farms.

Farm Irrigation

Our Bluebeery orchard is irrigated with Hi Tech pump station that is remotly controlled by our experts. Water is cleaned and all negativ elements are removed before it proceed to orchard. Drop by Drop irrigation is keeping plants healthy and with healthy plants we get healthy products.
