Thai power firm Gulf Energy Development plans to build a 48MW solar project in Vietnam in partnership with conglomerate Thanh Thanh Cong Group (TTC Group), according to a filing on the Stock Exchange of Thailand.

The US\$66 million solar farm in Trang Bang district, Tay Ninh province, will be 51% owned by TTC (<https://www.pv-tech.org/vietnams-ttc-group-plans-up-to-1gw-of-solar-parks-reports>) and 49% owned by Gulf.

The Project has been approved by the Ministry of Industry and Trade of Vietnam to sell electricity to the utility EVN under a 20-year contract. Project construction will commence in June 2018 and commercial operation is scheduled for June 2019.

The plans comes as part on MoU signed by Gulf and TTC to form a partnership to jointly study, develop and invest in energy projects in Vietnam including solar, wind, natural gas, coal, waste,
