

## Business Concern

Kerian Solar Sdn. Bhd., a joint venture company between a subsidiary of French utility giant, ENGIE and TTL Energy Sdn Bhd. As part of this joint venture, Kerian Solar has also signed an EPCC Contract with local solar energy solutions provider Ditrolic Solar to begin construction of the project.

Kerian Solar Sdn. Bhd. had signed a 21-year power purchase agreement (PPA) with utility Tenaga Nasional Bhd for the project, back in June 2020. Once completed, it will hold a total installed capacity of 136 MWp, reaping a carbon emission reduction of 157.2 tons of carbon dioxide (CO2) per year.

country's energy mix, of which 67% comes from solar energy.
