## Company News:

## Sunflower, quinoa and thistle, or as farmers defended soybeans

To get a good soybean crop - you need to understand the intricacies of growing this crop. To sell grain at the highest prices - you need to focus on the market. To get extra income - you need to set up processing, or look for your niche. That is why Agravery.com together with BASF continues the educational special project "Actual about soy", in which we tell everything about this culture, starting from the world and Ukrainian markets, the smallest nuances in cultivation and ending with the most ...
