CLETC profile > About us

China Light Industrial Corporation for Foreign Economic and Technical Co-operation (CLETC), founded in April 1983, is a wholly state-owned backbone enterprise for foreign economic and trade co-operation established with the approval of the State Council and a central enterprise under the direct supervision of the State-owned Assets Supervision and Administration Commission of the State Council. At the end of 2008, upon approval by the State Council, three central enterprises including CLETC, the former China National Light Industrial Group and China Haisum International Engineering Investment Corporation (Group) were reorganized to establish the new China National Light Industrial (Group) Corporation (SINOLIGHT).

CLETC mainly engages in domestic and overseas project contracting, foreign labor service co-operation, foreign economic aid projects of the government, import and export of assembly equipment and other commodities, domestic and overseas exhibitions, domestic and overseas industrial investment and foreign consulting service. The company has three wholly-owned subsidiaries and six joint stock companies in China, and two sugar making companies controlled by it in the Republic of Mali in West Africa. Besides, the company also has set up branches in many countries in the world.

As a main company undertaking the foreign investment, foreign project contracting and other relevant overseas businesses of SINOLIGHT, CLETC is one of the earliest Chinese enterprises obtaining the rights of international project contracting, foreign labor service co-operation and foreign exhibitions and other operational qualifications and received the certification of ISO9001:2000 quality management system in 2002 and the certification of UKAS (United Kingdom Accreditation Service) in 2006.

Relying on the advantage of SINOLIGHT from integration, CLETC will continue to implement its "Go Global" strategy, constantly broaden the fields of foreign economic and technical co-operation, such as: international project contracting, foreign labor service co-operation, import and export trade, domestic and overseas exhibitions, and domestic and overseas industrial investment, foster a good brand image for SINOLIGHT and CLETC in the international market, constantly boost its vitality through reform, innovation and scientific management, try to achieve a good development result, become a famous internationalized and industrialized enterprises providing systematic and integrated services for customers, redound upon the country and make contribution to the society.
