This company was a start at the beginning of 1985. It was a going ahead of the beginning of activity with great efficiency. It was one of the first companies which had the initiative to trade in all kinds of frozen cattle, poultry and fish meat in distinguished quality and at suitable price satisfying all the needs of the classes of the society. By reason of its distribution capability, the company obtained world distinguished agencies of meat production (sheep and cows) such as New Zealand Meat Agency (PPCS) as well as Argentinian Fish Agency of Major Companies. To support the integral activity for the company and after conducting feasibility study of meat industry, it founded AlMaraai Establishment for food Industries early in 1990 aimed to providing all kinds of processed animal, poultry and fish meat with a production capacity of 20 tons daily. The production Lines are as follows:

- Frozen and processed meat (burger, minced meat, shish kebab, etc.)
- Refrigerated and fumigated meat (processed meat, sausage, salami, etc.)
- Pastry: pizza, all kinds of samosas, kubbeh, etc.
- Luncheon of different kinds and in various packages (bovine, chicken, Anwar AlQuds, etc.)

This factory was established with the assistance of major international companies specialized in this field in conformity with modern scientific and technological practices. It was provided with a quality control laboratory aimed at controlling production thoroughly.

It was also provided with technical staff and well experienced personnel in this field. Thanks to good quality and reputation, the Establishment succeeded in exporting its products to many countries of the world (Arab Gulf countries, Lebanon, Iraq, Egypt, Algeria, Libya, Genea, Australia and New Zealand).

The factory was one of the first corporations to obtain International quality certificates in respect of management and production (ISO and HACCP certificates, Jordan quality mark).

As the group was seeking to develop its activities in the area and making available as strategic stock for the kingdom throughout the year of this basic and important commodity through feasibility study, it established in 1995 a private free zone in Aqaba region / Quwaira with an investment of 10 million Jordanian dinars. The principal objective of this project was to provide all kinds of live, fresh and frozen meat throughout the year from different sources (livestock from Australia, Uruguay, etc., frozen meat from New Zealand, Idia, China and internationally approved sources).

This project played a basic role in maintaining the balance of prices and their nonrise in the local market in agreement with all the classes of the society. Further, this project contributed effectively to supporting all the marketes of the area including Egypt, Palestine, Saudi Arabia, Lebanon and Arab Gulf countries. In order to provide this project with the elements of success, we observed comprehensivity factory in its components and parts to be as follows:

- Typical enclosures and farms
- A developed slaughterhouse
- A modern purification plant, the first in the area aimed at contributing to preserving the environment and providing water fit for drinking as per approved specifications
- A factory for residue treatment aimed at maintaining a sound environment
- Hide and intestine treatment unit
- Fodder mixture production unit (palett)
- Modern storhouses for the storage of frozen meat of all kinds
- A great fleet of modern ships was provided for transporting livestock from its sources to all the above mentioned outlets

Due to the belief of the Group in diversifying its activities, in particular in food industries, it purchased an existing specialized factory of the production of barley drink, juices and soft drinks early in 2005. This factory which operated excellently was one of major world companies. It is situated in Aljeeza district on an area of 30 donums.

Since it purchased this factory, the Group began to develop...
production lines, control quality and support the factory with a staff of long experience in this field by seeking the assistance of major international companies which had wide expertise in this kind of industry. This factory place its products with ability on the local and world markets by reason of its great technical capabilities and productivity.

In order that the Company may diversify its activities and offer the best quality to its consumers, it established the greatest complex of luxurious and distinguished furniture and household gifts under the commercial name Konooze ALSarg for Furniture and Gifts on an area of 1200sq.m. to be the largest one in the Kingdom in a distinct site in Amman / Sport City. This exhibition (show) was provided with technical personnel and decor engineers to present the best designs in agreement with all tastes and classes of people.

We took into consideration to gather in this complex, modern technology, up-to-date and world models and plurality of commodities as well as gifts from remarkable and distinguished sources.

Due to the international expansiv nature of the activity of the company and the numerous sources of supply, the Group founded supporting companies equipped with technical experience and highly efficient personnel aimed at supporting its activity and rendering excellent service to its customers. these companies realized great progress in developing thoroughly the method of work and the service renderd. The supporting companies are:

- International Company Egypt
- H/G Co., China
- Anjos Co., Brazil
- Gladino Co., Uruguay
- L S S, Australia
- Blue Ice Shipping Co

The Message of the Chairman of the Board of Directors The outset began by the foundation of Hijazi and Ghosheh Company in 1985 which introduced itself as a distinguished name in the world of industry and trade with a view to providin all Kinds of livestock and the best kinds of red and white meat at competitive prices. Our relentless efforts in search for excellence led us in 1991 tofounds the meat factory for the completion of the activity of the Group in satisfaction of the need of local and world markets for healthy processed meat of remarkable taste.

Based on the changes and studies conducted by the Group, we saw that it was fit to diversify the Groups activity to cover other areas for the service of consumers with the modern kinds of technology with a view to improving our competitive ability and keeping in line with world standards and specifications in the field of trade, food processing, juices and furniture.

Our investment was not limited to technology, but it extended to comprehend human force which works for us. In Hijaze and Ghosheh Group, we apply modern administrative conception and the criteria of quality control aiming at having the consent of our dear customers.

Our distinct, our several investments and our progressive growth in the world of industry and trade were not an outcome of chance, but they were modest extension of the families of Hijazi and Ghosheh and the great efforts with the beginning of this century looking forward to serve our beloved Jordan and develop livestock trade, meat and its processing of all kinds locally and internationally in order to achieve our desired objectives. Thank you. The Chairman of the Board of Directors of the Group ISSAM HIJAZI.

Finally, Characteristic of the company and Ghosheh Hijazi is a keen interest in the selection and application of international standards with respect to trade in meat, and its heavy reliance on the choice of sources of supply of this meat with the experts and Specialized to travel to all parts of the world for the selection of the model farms of the great reputation and fame great acts of hygiene control and health and then do within the process of shipping a large fleet of steamers and equipped for this purpose, where all the safety requirements and other health conditions, with accompanying veterinary specialists for these vessels, and full supervision by the company until the arrival of livestock to the port of Aqaba and then transferred to a large model farms and equipped for this purpose. As well as frozen and chilled meat and fish and all the other company’s products will be dealt with according to the latest international standards with strict controls on the health aspects and provide trained personal to monitor all the products until it reaches the consumer with all the tranquility and safety.
