MORE

what we produce

From the very beginning, we have paid special attention to the quality of our production. Special animal breeding conditions and well-balanced nutrition assure a notably high production quality. The meat has a low fat content and meets today's meat market demands.

The production quality and content comply with all requirements and standards of the European Union.

Pork

Quality is of the utmost importance to us. This is the main reason why we chose to use Danish breed with a high genetic level as well as high health breeding animals. Today, we are still keeping this high level...

MORE

Feed

We do not compromise when it comes to feed quality. We only use the best raw materials - energy, protein so our nutritionist can make a well-balanced recipe for the pork. And we prefer raw materials from the local...

MORE

Fields

We strive to obtain full harmony between our production, supply of raw materials and a high quality level. This means e.g. that we wish to have an easy access to high quality feed for our pork. In Lithuania we co-operate...

HOW WE WORK

At Idavang, we are fully aware that our continued business growth is closely related to how we interact with our surroundings. We are always friendly and respectful to people we work with, nearby communities, the environment we work in, laws and regulations that control our business scope. We believe that providing a positive working environment for our employees also includes taking care of the communities in which we operate. We wish to always behave as a responsible guest in the countries we operate in.

Environment

We constantly strive to take care of the environment in all every-day actions and we acknowledge the need for taking care of natural resources to the benefit of future generations. We do that to reduce any negative impact our production may have on the environment...

[MORE](#)

Animal Welfare

Ethical treatment of animals is one of the fundamental values of Idavang. We work transparently, fairly and with regard to all directives of the European Union and local laws on animal welfare. We constantly evaluate and review our production practices...

[MORE](#)

Corporate Social

Throughout the entire Idavang Group the management and employees do their best to be socially responsible to their communities and society. We consider ourselves members of the communities we are operating in – and we do our best to behave in such a way...
