In partnership with the Government of Odisha, Tata Steel is committed to set up a 6 million tonne per annum integrated steel plant at Kalinganagar Industrial Complex at Duburi, in the Jajpur district. The Steel Works will be established in two modules of 3 million tonnes of steel each and when completed, will have a capacity of 6 million tonnes per annum.

Special attention has been given to all the requirements of the families in rehabilitation colonies and resettlement camps that are fully equipped with all amenities. With Kalinganagar emerging as the steel hub of Odisha, Tata Steel will help boost the pace of industrialisation and socio-economic development, not only in the State but in the Country as well.

In 2012, Maniapatala village was added where 39 families are to be displaced, taking the total number of families to be displaced to 1234. As of December 15, 2012, 993 families (out of 1234 families) have relocated voluntarily in support of the project.

Details of the Plant Site

The proposed plant site happens to be a part of six revenue villages - Gobaraghati, Chandia, Gadapur, Nuagaon, Khurunti and Baragadia - of the Sukinda Tehesil in Jajpur District.

The specific details are given in the table below:

Sl. No	Revenue Village	Area (In Acres)		
		Private Land	Government Land	Total Land
1	Gobaraghati	731.600	61.940	793.540
2	Chandia	1083.810	263.345	1347.155
3	Nuagaon	90.70	15.82	106.52
4	Gadapur	388.49	135.749	524.239
5	Khurunti	128.006	0.540	128.546
6	Baragadia	236.78	123.63	360.41
	Total	2659.386	>601.024	3260.410

Kalinganagar - Project Highlights

- MOU for the steel project was signed between the Government of Odisha and Tata Steel on November 17, 2004.
- As per the MoU, Odisha Government agreed to provide 3,471.808 acres of land, earlier acquired through the Industrial Development Corporation of Orissa.
- MOU was also signed with the Nippon Steel Corporation on August 28, 2005 for offering technical assistance for the project.
- When operational, the Kalinganagar Works is projected to generate revenues in the range of Rs 2,200 crores per annum and also provide direct and indirect employment to about 20,000 people.
