About airport

The Kertajati International Airport was established in 24 May 2018, and since then, it has been hosting departures and arrivals from multiple countries.

The Kertajati International Airport serves people from all over Asia. It's exact coordinates are: -6.648924, 108.166692. Annually, the airport provides it's services to more than 460 848 (July–December) passengers to let them reach their desired destinations.

The aerodrome's International Air Transport Association's identifier is KJT. After completing the check-in stage, you'll see the corresponding code on your luggage. Also, the airport's ICAO (International Civil Aviation Organization) code is WICA, which allows it to be integrated into international flight scheduling.
