

Mada Woodlands (MWL) is a forest- and reforestation company in Madagascar. MWL is owned by Norwegian investors.

The Norwegians behind MWL are established with businesses in the western part of Norway, and deliver merchandise and services to the industry and the forest business. Among the customers are StatoilHydro, BKK, Mesta, Nortømmer and several other companies that demand the best quality and expects strict guidelines on health, environment and security.

We have developed our knowledge and network within the European forest business during the last 30 years. In this time we have built experience and competence related to the technical and environmental standards of today, and are experiencing a solid and growing business.

MWL have been active for apx. three years on Madagascar. We have made investments to learn of all the environmental- and social issues on Madagascar, and the deforestation in particular. By now we have established a large network with local authorities, and are also in dialogue with numerous capacities within the forest business. MWL also have contributed to several humanitarian- and social projects in Madagascar.
