PPB Oil Palms Berhad is a plantation group principally engaged in oil palm cultivation and milling of fresh fruit bunches. The Group currently owns (100%/ majority stakes) and operates 13 plantations totalling 78,396 hectares and 8 palm oil mills in Sabah and Sarawak. The Group's goal is to remain profitable, stay competitive and achieve sustainable growth with appropriate strategies to maintain an equitable balance between commercial success and environmental/ social considerations. Accordingly the Group adheres to the principles of sustainable agriculture in the management of its plantations operations. In all greenfield developments, the Group has a policy of clearing only suitable non-high conservation value areas for planting oil palms. Other aspects that relate positively to environmental conservation are prescribed in its Agriculture Manual to ensure that its estates adopt the best management practices.
