Factor Message Actual on

The head/founder (participant)/ultimate beneficial owner of a legal entity is a person connected to a national public figure. Connected are those who jointly or are agreed to carry out economic activities, including jointly or are agreed to influence the economic activities of the enterprise. In particular, connected individuals are family members (persons who are married, as well as their children, including adults, parents, persons under guardianship and custody, other persons who live together, share common life, have mutual rights and obligations (except for persons whose mutual rights and obligations are not family-like), including persons who live together but are not married).

National public figures are persons in a particularly responsible position related to the possibility of conflicts of interest and influence (including illegal) and in the sphere of economic activity. Considering that the scale of their influence and the consequences of conflicts of interest are significantly greater compared to other entities, the economic activities to which such persons are involved (in particular, financial transactions) should be carefully monitored.
