BORNEONEWS, North Arut - PT Persada Bina Nusantara Abadi (PBNA), a subsidiary of PT Astra Agro Lestari, does not want to compensate for a 30-hectare land owned by Yohanes Kisaran bin Madun, a resident of RT 05, Pangkut Village, North Arut District, Kobar Regency.

PT PBNA is alleged to have annexed a 30-hectare land belonging to Yohanes Kisaran in RT 06, Pangkut sub-district in 2000. Yohanes admitted that in 2003 PT PBNA had acknowledged and would compensate for the land he had cut down and planted with Rp7 million. However, until now, Yohanes has not received any money for the compensation. The 30-hectare land is located in the Delta afdeling as many as three blocks, namely blocks 11,12, and 13.

"From 2003 until now there has been no compensation. Previously, there was an agreement of IDR 7 million for 30 hectares, but I actually objected that the 30 hectare period was only compensated for only IDR 7 million. I haven't received that amount of money until now," said Yohanes on the land he appointed to Borneonews. , in Afdeling Detla Block 11 RT 06 Pangkut sub-district, North Arut District, Kobar Regency, Monday (25/7/2016).

He explained that the land already had SKT. However, the SKT has long been handed over to the Company. It is not the lure of giving compensation, because the company has agreed that the land belongs to Yohanes Kisaran's heirs.

He acknowledged that he inherited the right of inheritance from his parents, he told me that when he was little, the garden which is currently planted with all oil palm trees was once a garden where many bulin trees were planted.

"There were also a lot of durian trees in the past, after the company cut them down, my school fees were the result of selling produce from this garden," he admitted.

He urged the company to immediately settle its obligations. This is because his land has been producing palm fruit for a dozen years for the company. Meanwhile he felt aggrieved because his land just disappeared.

In response to this, PT PBNA considers the company to have paid compensation in 2003 in the amount of Rp. 1 million per hectare. Even the proof of payment against John Kisaran is in the hands of the company.

"We have already finished that, already paid in 2003 with the amount of more than Rp. 1 million per hectare," said, one of the leaders in the company who refused to be published. (CECEP HERDI/m)
