US\$310 mln to be poured into the seaport and industrial park complex in Nha Mac marsh area
 9/22/2016 11:40:00 AM

QNP - The Prime Minister has recently approved the development of a seaport and industrial park complex in the Nha Mac marsh area in Quang Yen town.

The seaport and industrial park complex in the Nha Mac marsh area.

Covering 1,193 hectares at a cost of VND6,940 billion (US\$310 million), the seaport and industrial park complex is jointly invested by the CDC Corporation headquartered in the Cayman Islands, the Middle Utilities Company Pte. Ltd from Singapore and the Infra Asia Investment Limited in Hong Kong.

The PM assigned Quang Ninh People's Committee to review and grant the investment certificate for the project and consider the granting of investment certificates in stages and ask investors to follow their commitments as stated in the dossiers.

The province was directed to instruct relevant agencies to hand over land for the progress of the project and observe the Land Law and the Law on Forest Protection and Development when repurposing land.

Additionally, the investors are responsible for submitting a report on assessing environmental impacts to authorized agencies soon. The province must oversee the implementation of projects posing risks to the environment.

In order to ensure effective land use and increase the occupancy rate at industrial parks, cancelled projects will also be reviewed and revoked investment certificates if necessary./.
