Rift Valley Forestry

- Acquired 210,000 ha of land in Niassa Province, Mozambique in 2006.
- Highly suitable for forestry and other large scale agro-industrial activities.
- Primary objective is to establish integrated forestry company.
- Established a large scale nursery.
- Temporarily had offices in Lichinga.
- Management Team established.
- Planted 200 ha of Eucalyptus and Pine in 2006/2007 rainy season.
- Large scale planting to commence in rainy season 2007.
- Will create a large scale commercial forestry operation.
- Will protect 70 000 ha of pristine natural forest.
- Rift Valley Forestry (RVF) recently entered into a Research and Technical agreement with the University of Stellenbosch.
- There will be two basic investment horizons for plantations : 7-10 year pulpwood rotation and 25 year sawlog rotation.
