Bonduelle to launch a can production plant in Krasnodar Krai
17.08.2013 16:06

The French company Bonduelle, a leading manufacture of canned, frozen and fresh vegetables in Europe is to launch a new can production plant in Krasnodar Krai, announced the Bonduelle General Manager Benoit Bonduelle at the meeting with the Krasnodar Governor yesterday, reports Itar-tass.

The new can production plant will be installed next to the operating since 2004 production line in Timoshevsk, which has already got €10m investments and €15m more to go.

'The new plant will be set in operation in the nearest future', said the Bonduelle General Manager.

The company is glad with Krasnodar climate conditions and local facilities for growing garden peas and sweet corn. At that Bonduelle has a large support base of about 40 local contract growers in Russia in addition to its own farms.
