

HOUNDÉ MINE

The Houndé mine was successfully built ahead of schedule and below budget, with its first gold pour occurring in October 2017 and commercial production announced on November 1st 2017. Houndé has become the Company's flagship low-cost mine, ranking amongst West Africa's top tier cash generating mines, with an average annual production of 235,000 ounces at an All-In Sustaining Cost of \$610/oz over its first four years.

EXPLORATION POTENTIAL

The Houndé exploration tenement covers more than 1,075 square kilometers within Burkina Faso's highly prospective Birimian Greenstone belt. Following a two year period of no drilling exploration, activities will resume in 2017 with a \$5 million program totaling approximately 45,000 meters. The focus will be on delineating high-grade targets such as Bouere and Kari Pump, in addition to performing reconnaissance drilling.
