Downstream Overview

Other than upstream plantation activities, Sime Darby Plantation is involved in the manufacturing and distribution of oils and fats products, oleochemicals and palm oil-based biodiesel, as well as fast moving consumer goods. The company’s downstream activities are present in 14 countries, where refining of Crude Palm Oil (CPO) is undertaken for edible oils and fats products, oleochemicals and biodiesel.

Sime Darby Plantation’s business philosophy in the manufacturing of a comprehensive range of palm oil-based products is to maintain the highest quality at all times. This has ensured the Company an edge in its selling proposition and sets Sime Darby Plantation Sdn Bhd apart from the competition.
