Maryland County Gets Multi-Million Dollar Palm Mill

New Dawn • May 24, 2021 267 2 minutes read

Speaker Chambers, Maryland Legislative Caucus Express Upbeat

A joint venture between two agriculture companies, Golden Veroleum GVL, MOPP-SIFCA with a focus on the planting and harvesting of palm plantation, operating mostly in the southeastern part of Liberia, affecting Maryland, Sinoe, and Grand Kru Counties has yield a positive outcome, resulting in the acquisition and construction of a Multi-Million Dollar state-of-the-art Palm Processing Mill in Pleebo-Sodoken District, Maryland County.

At a meeting with Speaker Bhofal Chambers and Members of the Maryland County Legislative Caucus under the Chairmanship of Rep. Isaac B. Roland last week at the Capitol Building in Monrovia was disclosed by GVL executives that the factory construction works have reached its optimal level and the collaborating companies, GVL and MOPP-SIFCA will commission the plant for full operations by the 15th of June, 2024.

Mr. Ferdy Surya Handojo, Mr. Elvis G. Morris were the two executives of GVL who spoke for and on behalf of their company and made the disclosure.

According to the GVL executives, the plant will be called the Golden-SIFCA Palm Mill and will have the capacity to extract tons of palm oil from palm fruits, along with other usable products from the palm. It was disclosed that the mill will operations will bring employment opportunities to more than 120-Liberians initially, mostly from the local communities in the proximity of the Mill to work with some foreign technocrats. The Mill will have what the GVL officials referred to as 40/80 TPH capacity to process palm fruits for both the GVL and MOPP-SIFCA companies under an agreed management framework between the two companies. The Mill is expected to add value to palm products that may be subsequently shipped to other markets of the world, thus positively adding to Liberia’s export earnings and foreign exchange for more economic viability.

Meanwhile, the Maryland Legislative Caucus has welcomed the completion of the Palm Mill with shareholdings between the GVL-Liberia and MOPP-SIFCA, describing the venture as a success story. The Caucus has however frowned on the companies for renegeing on some parts of their concession agreements specifically about Liberians given the opportunity to serve at managerial levels in the companies, but so far the companies in the area have done very little.

Educate Her

Policy Brief SUMMARY – January 2024

ALIGN THE EDUCATION SECTOR PLAN WITH THE GIRLS' EDUCATION

Written by Alsha Cooper Bruce, Gender and Advocacy Consultant

For a copy of the FULL Policy Brief please click the link below:

<https://bit.ly/EOLPolicybrief>

Summary Overview

The **National Policy on Girls' Education (NPGE 2021 – 2026)** aims to provide adequate access to affordable and quality education and promote gender equity and equality through the educational system. However, low budgetary allocation, gaps in technical capacity, and inadequate coordination, among other issues, have hindered national efforts in prioritizing girls' education in Liberia.

POLICY POINTS

Policy Focus: Align the Education Sector Plan to the National Policy on Girls Education to ensure a Gender Transformative Education Sector

- 1. **CONSOLIDATE:** Map out corresponding strategies to develop
