

# Mako Gold Mine

## Technical Overview ▲

- Production started January 2018
- Average annual production target of 137koz per annum over first 6 years of production
- JORC Compliant Mineral Resource of 1.4moz at 1.83 g/t Au
- JORC Compliant Ore Reserve of 1,030 koz Au at 2.25g/t
- Contract mining performed by African Mining Services Senegal (SUARL)
- Open pit mining operation at an average LoM strip ratio of 5.1(waste): 1.0(ore)
- 1.8mtpa processing facility comprising Primary Crush / SAG Mill configuration and CIL Plant including Cn destruct circuit
- Average LoM recovery of 89.6% at a target grind of P(80) 125µm;
- 14MW Diesel fired Power Plant
- Strong stakeholder support with no physical relocation required, in pro-mining jurisdiction
- Compact site infrastructure layout, reducing environmental and social footprint
