Subic Bay Solar PV Park is a 100MW solar PV power project. It is located in Central Luzon, Philippines. **According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently active. It has been developed in multiple phases. Post completion of construction, the project got commissioned in 2016. [Buy the profile here.](#)**

Description

The project is developed and owned by Emerging Power.

Subic Bay Solar PV Park is a ground-mounted solar project.

The electricity generated from the plant has offsetted 44,300t of carbon dioxide emissions (CO2) a year.

Development status

The project got commissioned in 2016.

Contractors involved

SunSource Energy and Tamoin Industrial Services were selected to render engineering procurement construction services for the solar PV power project.
