PRESIDENT Michael Sata has asked FDD leader, Edith Nawakwi to ensure that the locals in Nakonde and Isoka constituencies scrutinise the over \$450 million investment in the bio-fuel enterprise, Kaidi Biomass, so that it fully benefits them.

Addressing government officials and chiefs' representatives in the area on Sunday evening, Nawakwi said there was need to work with foreign investors who meant well for Zambia's economy in order to record growth.

"I am not here as Edith Nawakwi your daughter, but because His Excellency the President Michael Chilufya Sata had a meeting with a delegation from China" and decided that he wanted to have me here. It's from the horse's mouth," Nawakwi said. "You need to understand that this company seems to be unique.

The Chinese companies we have had are either in mining, trading, or they want to be on the tarmac.
