Tana and Athi River Development Authority is a State Corporation , under the ministry of environment, water and natural resources (MEW&NR). TARDA was established in 1974 through an act of parliament CAP 443, to undertake integrated planning, development coordination and management of the resources within the Tana and Athi River basins.

Tana and Athi River Basin covers an area of 138,000 Km² or 24% Kenya's land mass. It is an area that abounds in diverse natural resources including the two biggest rivers in the country and Mt. Kenya ,The second highest mountain in Africa apart from other unique features and resource.
