

Welcome to the Tozzi Green website

Tozzi Green is a subsidiary of the Italian TOZZI HOLDING group and in particular of the TOZZI RENEWABLE ENERGY branch, our company is operating in the agriculture and renewable energy fields.

Who are we?/ The Company

Tozzi Green is a subsidiary of the Italian TOZZI HOLDING group and in particular of the TOZZI RENEWABLE ENERGY branch, our company is operating in the agriculture and renewable energy fields.

How do we work ?

We are currently implementing a project entitled Ihorombe Biomass Biofuel (Biomasse Biocarburant Ihorombe) on an area that will extend to 100,000 Ha by 2019. Implementation of the projects we set up and manage takes into special account the parameters and background in which each project is framed. We therefore make a point of observing local values and customs.

Words from collaborators

« The development of Madagascar »: a really important issue for each malagasy or an utopia? The road is hard and often perilous for every entity, company or person, I have integrated this company because I am hopeful that now we can change, we can bring at our level this desire to succeed ... - Landry RANDRIAMANANTENA

The pursuit of profits characterizes each commercial company because it constitutes its guarantee of durability. However, beyond the purely financial issues, it is much more challenging and more rewarding for each one, regarding pure personal satisfaction ... [Read more](#)

- Rotsy RAMBININTSOA

Energy, an indispensable force for the development! To achieve its economic objectives, a country which seeks for development such as Madagascar should find a durable solution in matter of energy. A challenging project such as BBI is in my opinion one of the best solutions ... [Read more](#)

- Felirija ANDRIANATOAVINA

Conscious of the human dimension of the BBI project, the company TOZZI GREEN has implemented an extensive program of social and economic development in the project's implementation area. The SEP (Socio-Economic Project) is composed of programs focused towards ... [Read more](#)

Our key project

[!] We are currently implementing a project called Biomass Biofuel Ihorombe on a surface, eventually to 100,000 ha by 2019.

A word from our Manager

Madagascar's land and waters are a hub of biodiversity to be safeguarded at all costs as a priceless treasure for humanity. The island is also a nation blessed with a young and dynamic people [Read more](#) ...
