Agrigrowth investment fund

Print

24.06.2008

The lands of the Fund will be cultivated with the world record breaker Caterpillar Challenger MT875B

Agrigrowth investment fund \"Ceres\", one of the biggest \"players\" on the land market in Bulgaria, has invested just from the beginning of the agricultural year over 2 mln euro in machinery and is planing to invest at least this much the next year. The goal of this investment is sensibly to accelerate the development of the agribusiness of the company, witch is concentrated mostly in North Bulgaria. The top purchases of the company are the Caterpillar Challenger MT875B with its 600 hp engine (the machine has set the world record in cultivating land - 644 ha for 24 hours), and the Caterpillar Challenger MT865B, 510 hp.
