## Permission for special water use N°54 / PL / 49d-20 dated 17.04.2020

### Water user information

**Type of water user**

Legal entity

**Name**

PRYDNIPROVSKY REGION AGRICULTURAL LIMITED LIABILITY COMPANY

**Identification data**

25207363

**Place of registration**

19700, CHERKASY REGION, ZOLOTONOSHA city, street OBUKHOVA, bldg. 52/3

**Contact information**

Phone: + 38- (473) -722-2729, E-mail: zgb.palmira@kernel.ua

### Permission information

**Name of the authority that issued the permit**

Sector in the Poltava region of the State Water Agency

**Issue number and date**

N°54 / PL / 49d-20 dated 17.04.2020

**Validity**

from 17.04.2020 to 17.04.2023

**Current status**

acting

**Permit form**

electronic

**Water use region**

POLTAVA

## The purpose of water use

- Irrigation

## List of places of water use (water intake)

### Actual place of business

Surface water intake from the Kremenchug reservoir by moving water by reclamation systems - Hradizka irrigation system canal of the Kremenchug interdistrict water management department, pumping station стан3, р. Mozoliyivka, Hlobyne district, Dnipro river, Dnipro river basin district.

### Water supply source type code

(20) The river

### Code and name of the water supply source

CHER / DNEPR / R.DNIPRO

### Code and name of the water management area

M5.1.2.04, the Dnieper from the dam of the Kaniv Reservoir to the dam of the Kremenchug Reservoir (excluding the rivers Ros, Supiy, Sula, Tyasmin)

### Type of water use

Fence from surface sources

### Deciphering the type of water use

Not specified

### Actual place of business

Surface water intake from the Kremenchug reservoir by moving water by reclamation systems - the canal of the Hradizka irrigation system of the Kremenchug interdistrict water management department, pumping station N°4, in the village of Brovarky, Globinsky district, Dnipro river, Dnipro river basin district.

### Water supply source type code

(20) The river

### Code and name of the water supply source

CHER / DNEPR / R.DNIPRO

### Code and name of the water management area

M5.1.2.04, the Dnieper from the dam of the Kaniv Reservoir to the dam of the Kremenchug Reservoir (excluding the rivers Ros, Supiy, Sula, Tyasmin)

### Type of water use

Fence from surface sources

### Deciphering the type of water use

Not specified

## Water intake limit

Indicator

Volumes of water

m<sup>3</sup> / day

thousand m<sup>3</sup> / year

Water intake, total (including):

34396.2

1919.7

Indicator	Volumes of water	
	m <sup>3</sup> / day	thousand m <sup>3</sup> / year
- from surface sources (separately for each source)	34396.2	1919.7
through the canal of Hradizka irrigation system. Р.ДНІПРО	34396.2	1919.7
- from underground sources (separately for each river basin)	-	-

## Water use limit

		
Indicator	Volumes of water	
	m <sup>3</sup> / day	thousand m <sup>3</sup> / year
<b>Use of water for own needs, total (including):</b>	34396.2	1919.7
<b>from surface sources:</b>	34396.2	1919.7
- for drinking and sanitary needs	0	0
- for production needs	0	0
- for irrigation	34396.2	1919.7
<b>from underground sources:</b>	-	-
- for drinking and sanitary needs	-	-
- for production needs	-	-
- for irrigation	0	0
<b>from another water user:</b>	-	-
- for drinking and sanitary needs	-	-
- for production needs	-	-
- for irrigation	0	0

## List of places of water use (drainage)

No information
----------------

## Other characteristics of special water use

 
---

Indicator	Volumes of water	
	m <sup>3</sup> / day	thousand m <sup>3</sup> / year
Received from another water user	-	-
Received from another water user return (waste) water	0	0
<b>Water transfer, total (including):</b>	-	-
- to the population	-	-
- secondary water users (without use)	-	-
- secondary water users (after use)	-	-
<b>Discharge of return (waste) water, total (including):</b>	-	-
- in a surface water body	-	-
- on the filter fields	-	-
- transfer to another water user	-	-
- to the drive	-	-
- in the cesspool	-	-
- to another receiver	-	-
<b>Water use in water supply systems:</b>	0	0
- reversible	0	0
- repeated	0	0
<b>Losses in water supply systems</b>	0	0

## Conditions of special water use

1. Transfer to other water users and abstraction of water above the established limit is prohibited.
2. It is forbidden to discharge sewage using the terrain.
3. In accordance with the Procedure for state accounting of water use, approved by the order of the Ministry of Environment dated 16.03.2015 N° 78, annually, no later than February 1 of the following year to submit a report on the form N° 2TP-vodhosp (annual) to organizations belonging to the State Water Agency (Kotsyubynskoho Street, 6, Poltava).
4. Comply with the requirements of water legislation, in particular Article 44 of the Water Code of Ukraine on the responsibilities of water users.
5. In case of termination of activity to cancel the permit for special water use and to inform the organization belonging to the sphere of management of the State Water Agency about the termination of submission of the report N° 2TP-vodhosp (annual).
6. To prevent disturbance and collapse of the coastal zone of water bodies. Water intake from a surface source should be carried out in a specially equipped place.
7. Adhere to the established rules of storage, transportation and use of fertilizers, chemical plant protection products and other toxic drugs and substances in order to prevent water pollution (Article 103 of the Water Code of Ukraine).
8. Carry out laboratory quality control of water used for irrigation, Article 65 of the Water Code of Ukraine.
9. Prevention of waterlogging, flooding and salinization of lands during irrigation, Articles 65, 107 of the Water Code of Ukraine.
10. In the cases provided for in Article 45 of the Water Code of Ukraine, at the reasonable request of the State Water Agency to temporarily change the conditions of water use (without making changes to the permit).

## Information on environmental measures

N°	Name of the environmental measure	Deadline	Criteria (indicators) for achieving effectiveness
1	Keep water intake areas in proper sanitary condition	Constantly	Protection of surface waters from pollution and clogging
